About Us

Dogi Kids is a leading brand in children's shoe manufacturing, with over 30 years of experience, Dogi has become an international, well-established leader in school oriented footwear. Our company provides children everywhere with high quality materials, versatile and stylish designs, and most important, with innovated footwear technology and craftsmanship that undoubtedly fulfills a growing child's needs.

Dogi Kids manufacturing company was founded in 1981 in Mexico, in one of the areas known for their expertise in leather footwear. In its infancy, our company produced a few hundred daily pairs, but with time Dogi Kids' reputation grew and our core values became well established in the footwear community, we presently produce over 30,000 monthly pairs and distribute at an international level. An in-house team of special researchers and developers work with European technology, a patented process which encourages healthy development and support for children's developing feet. We only use the highest quality materials available and full construction of our footwear is provided in our headquarters, from the initial sketch to the reinforcing outsole process, the whole completion of our footwear is done at our production center. This proximity to our product's construction allows our staff a constant watch and control of every pair's quality, never cutting corners on details, providing our customers with an exceptional best value footwear.

Our selection has grown over the years, not only do we provide uniform level footwear, but have created a vast selection for every occasion and personality! Such styles appropriate for school, casual wear, special events and athletic activities. Rest assure, we have a complete and ever-growing selection for infants and big kids alike.
